Introducing Grade 8 Science 20-Lesson Program

Effective Review & Intervention Activities -- See at CAST Booths 439/441

The [DynaNotes Grade 8 Science STAAR Review & Intervention 20-Lesson Program](#) covers the supporting and readiness standards for grade 8 science using a variety of effective games, activities, and instructional tools. PowerCubes, card decks, ActionPacks, computer games, and student workbook activities combine to form a student-friendly, comprehensive pre-test review or intervention program.

Each lesson includes a whole group, a cooperative group, and an independent learning activity. [View a pacing chart sample](#) or [request a complete pacing chart online](#) that fully describes program materials and activities. Or investigate the links below to learn more now.

[10-Student Grade 8 Science SR&IP](#)

[20-Student Grade 8 Science SR&IP](#)

[30-Student Grade 8 Science SR&IP](#)

New games for grade 8 science are now available! The [DynaNotes ActionPack](#) acting/drawing cards and coordinating ActionPack game bag are available separately or within the 20-lesson program.

Visit the DynaNotes Teachers' Workroom to see some of the fun, [free computer games](#) that are on the 20-lesson program CD.

DynaNotes review guides equip students with easy-to-access CONTENT to support their participation in the COGNITIVE RIGOR of the DynaNotes 20-Lesson Review & Intervention Program!
